👤 SUMMARY

I'm **Azzeddine CHENINE**, a **20 years** old Algerian **computer science engineering student** at the Higher National School of Computer Science Engineering (ESI ex:INI), Algiers, Algeria.

Being passionate about **software engineering** and all what's related to the tech industry, I started improving my technical, teamwork and communication skills, by working on serval **web and Android mobile applications** with other developers or by myself.

Also, I am active at **Google Developers Group, Algiers** as a **community manager**, **trainer** and lately as the **event manager** of DevFest Algeria center, December 2017.

Last but not least, I work on being an **open source contributor** and **tutorials Blogs author,** sharing some of my projects source code as public repositories on **Github** and sometimes I provide my community with a full **medium blogs series** on how I made this projects.
